There always seems to be new types of food in the supermarket. But what do we know about the food that we eat? Do we always know where it comes from, and can we trust it to make us strong and healthy?

Some experts worry that although we are living longer, many people are less healthy than in the past. This might be because we do not always eat healthy food.

Food producers all want to sell us their delicious products, but how healthy are they? Scientists tested food that we can buy in supermarkets and the results might surprise you. We all know that you mustn't drink water from the sea, but did you know that there are some types of soup that are saltier than seawater? Scientists also found that some fruit juice is worse for you than fizzy drinks, because although it is natural, it contains a lot of sugar. And it is thought that some sports drinks have eight teaspoons of sugar in them!

If you want to buy healthier food, you should check the labels on any food you buy at the supermarket. Personally, I will be cooking my own food from now on. In this way, I will always know the amount of sugar and salt in my meals. That must be a healthier way to eat!

Last year my friend Hesham and I decided to visit an old friend called Adam. We had first met Adam at Cairo University, but we lost touch with him when he moved to Thessaloniki in the north of Greece I had always wanted to see Athens and so Hesham agreed to spend a few days there before we went to meet our friend. We decided to use an old guidebook of the city that my cousin, Sami, had given to me .It was supposed to be the best guide to the city. It seemed to be very detailed and it had a lot of maps

At the time, I didn't realise that it had been more than fifteen years since my cousin last visited Athens. If we had known that his book had been written in 2003, we wouldn't have used it! It told us to avoid a lot of hazardous places in the city, so we did. Adam later told us that those areas were fantastic. We should have realised that a lot of changes had been made to the city for the 2004 Olympic Games. Areas that had not been very interesting in 2003 became very interesting after they were improved. If we had known about them, we would have gone to see those areas for ourselves When we left Adam, he gave us an up-to-date and reliable new guide to Greece, which we used to visit some of the islands. You could also read it online and download maps and updates. It was fantastic! If I went traveling again, I would definitely use an up-to-date guide.

- a) It seemed to be good. b) He did not trust it.

3 Why did the writer and Hesham not visit some parts of Athens?

- a) Adam ordered them not to go there. b) The Olympic Games were happening
c) The guidebook did not recommend them. d) They did not have time.

4 How did they get information to travel around the islands?

- a) from an online guide b) from an book
c) from a guide that Adam wrote d) from a man who knew the islands

5 What had changed in Athens since 2003?
